## Get to Know Us

Africa 2000 Marketing was established in 1995. Our main focus was Marketing existing and new companies in and around Richards Bay and Empangeni areas. In 2002 we realised that there was a greater need in outsourcing and decided to expand and created a new division called A2M Services. In 2015 we changed from Labour Broking to a Service Orientated Company.

A2M Services, our staffing division was formed in 2003. A2M Services was formed to meet the unique needs of industry in the Richards Bay and Empangeni area, in 2011 expanded its services to Durban and in 2018 further expanded to Gauteng. Our experienced personnel have supplied a wide range of staff, to an even wider range of companies over the last 20 years.

## Mission Statement

We not only believe in bringing the best professional service to the industry and our clients but also in empowering the people that find themselves in our employ, not only in employing them but also in providing them with the best training we can offer. High level of professionalism is placed when we identify a qualified and competent candidate for our potential clients. We also pay excessive attention to one-on-one relationships with companies and candidates and also potential future clients.

## Vision

Our vision is to bring to our clients the best there is to offer, that is, high quality, professional services by instituting the promise we made in our mission statement. Our vision is also to maintain an open door policy with our clients and the people in our employ to ensure a smooth running operation.

# Our Talented Team

**Dorrit Smith**  
Managing member

Dorrit has worked extensively in the labour market and as a result, SERVICE is her major focus. Dorrit's in depth knowledge of the industry, and her ability to communicate at all levels, makes her a key leader of this dedicated team

**Phiwa Buthelezi.**  
Senior Payroll Administrator

Phiwa has been involved in the labour industry, since 1994, and has worked in all departments, gaining a wide range of skills. She now specialises in the payroll systems which she helped to develop, along with Dorrit. Her friendly personality and dedicated attitude, makes Phiwa a great asset to the A2M team.

**Nonjabulo Mbuyazi**  
Accounts Administrator

Nonjabulo has been a dedicated team member for many years, keeping our accounts department up to her meticulous standards.

# Our Talented Team

4

Chanel Janse van Rensburg  
Operations Manager and Office Manager

Chanel joined A2M in 2007 with an industrial background. She has dealt with labour on all levels, and has an excellent knowledge of what is required in the various industries that we operate in. Her ability to deal with staff and management makes her invaluable to the operation.

5

Nathi Shibe  
Operations Manager - Durban

With years of experience and a keep eye for detail, Nathi keeps our Durban operations running smoothly.

**AZM SERVICES**

**STAFF IT**

**TARP IT**

**PAINT IT**

# STAFF IT

Staff It is the staff procurement division of A2M services. We are an independent service contractor, dealing predominantly with the warehousing, manufacturing and logistics industries. Customers include: Port, BIL (Bidvest International Logistics), BPO (Bidvest Port Operations), Rennies, MPact and Mondi.

Ours is a very hands-on business - we aim to be involved and informed at every step of the staffing process, from initial needs assessments to staff selection, and beyond. We have a strong pool of employees on our register to pull from at any time. All staff are employees of A2M, which means we deal with all RI & HR so that you don't have to.

A2M has staff that are experienced in the paper handling industry and can be employed as: operators, clamp operators, forklift drivers, general workers, drivers, tele clerks, storeman operators, sweepers and more. We can provide staff for warehouse cleaning services on a daily or monthly basis. We can assist with experienced employees for container unpacking.

Whether you need skilled or unskilled labour, A2M has the right people for the job. From our offices in Durban and Richards Bay, we operate all over South Africa, providing your company with the right people for any task.

# Services Offered

We offer both skilled, and unskilled labour i.e.

- Skilled operators (Clamp and forks)
- Lashing Services
- Container Unpacking and Packing Services
- Chemical handling services
- Vast experience in supplying all types of Warehouse Service
- Qualified drivers (all codes)
- Computer operators
- Storemen Operators
- General administrative office staff
- Supervisors
- Planners
- General Workers with cleaning, packing, and tarping experience

# Our Responsibilities

- To get to grips with what the Client needs, in terms of Employees' and how their work place runs.
- To Interview, assess or evaluate applicant characteristics and qualifications.
- Develop and evaluate job orders.
- Ensure that the best suitable candidate is chosen for the client.
- We make ourselves aware of the sites we work on and interact with both client and employee to make sure that the jobs are being done correctly, safely and honestly.
- We are very hands on, in the work place.
- We have a good strong connection with our Employees, and help them in anyway that they need assistance, personal or otherwise.
- We are strong believers, in that keeping our employees happy and proud to work for us, leads to a very productive workforce, resulting in A2M providing excellent service keeping our clients happy.

# What we Do

1

Always Available - We have a on-demand strong pool of employees to pull from at any time.

2

Staff for all roles - We can supply any staff for unskilled and skilled labour.

3

End-to-end service - A2M deals with the PPE, Payroll, UIF, Skills, Workman's Compensation, Provident Fund, etc.

4

Experienced Teams - Our staff are experienced in the paper handling industry in various roles: operators, drivers, clerks, storemen, or cleaners.

5

Independent - A2M is an independent service contractor. You deal directly and only with us.

6

Nationwide Coverage - We operate from KwaZulu-Natal, but we can provide staff for your business anywhere in South Africa.

# TARP IT

After years providing on a daily basis in the Port of Richards Bay, we came to understand the need to manage Cargo by means of controlling dust as well as eliminating un-necessary loss of cargo due to winds, and in 2011 our Cargo Tarping division was formed.

An enormous amount of research went into finding the correct type of material that is light and can do the job, and since then because of the way that it is bound together and weighted down, we have had very good results from our clients, and the Port of Richards Bay is very happy as it has complimented their environmental policies.

Tarp It carries a comprehensive range of strong, durable tarpaulins. Our tarps are available to hire for short- or long-term projects. Each tarp comes with lengths of rope for each eyelet ensuring easy tie-down. Tarpaulins help to stop cross contamination between cargo types. They are great for keeping dust in a controlled area. Tarps offer money-saving advantages as they prevent loss of cargo.

Our tarps are light and easy to manage, and our range is suitable for various applications including mine tarps and grain covers.

# What we Do

1

Cover any cargo - rail, road, port, or freestanding (excl trucks).

2

Various Applications - we offer waterproof and non-waterproof tarps.

3

Full Service - full service from laying to removing.

4

Tarp Rental - daily, weekly, monthly, yearly.

5

Custom Tarps - Branding on tarps is customisable on request.

6

Size Matters - Tarps can be connected to customise and increase size.

# PAINT IT

Internal Floor markings serve various purposes: improving safety, showing evacuation routes or traffic areas and aisles, ensuring efficiency, storage & organisation, or business strategies. In warehouses, factories and production areas, the floor offers great opportunities for improving visual communications using floor markings.

External line markings are critical for controlling traffic in a specified area. This can include lane line markings, yellow lines, stop junctions, crossings, speed symbols, directional arrows, parking bay lines and numbering, loading bay markings and more. We use the latest concrete preparation equipment and highest quality paints available to ensure the absolute best finish.

When done correctly, floor markings can be useful. If they are applied without a good strategy, they can cause more problems than they fix. With this in mind, we work with your facility managers to plan the best floor marking strategy for your situation. We will first visit your site to discuss your needs and get to know your operation first hand. We will identify any potential problems and advise you on the best procedures and marking layouts to suit your individual needs. We then proposal a full layout plan and a detailed work schedule to limit disruption to your operation whilst our fully qualified team paints your lines and walkways.

Our qualified and experienced teams offer nationwide service for all your internal and external line marking needs.

# What we Do

1

**Internal Floor Demarcation** - All industrial floor marking such as bay markings in warehouses, distribution centre directions, factory floor marking and signage.

2

**Floor coating** - Any painting of floors or roads on site, to improve the appearance of an older floor or colour-code specific areas.

3

**External Line Marking** - All outdoor area ground signage such as emergency markings and stop streets, roadways, car parks and pedestrian walkway markings.

4

**Interior Painting** - We can re-paint the inside of your warehouse to enhance lighting, provide a clean & modern appearance, or improve safety.

5

**Quality materials** - We use high-quality road marking paint that is known for its durability under all usage conditions, from light to heavy traffic.

6

**Smart and Efficient** - We bring it everything needed to complete the project - from the staff to the paint – providing a one-stop no-hassle service.
